

KRIYA WINES

In the province of Chieti, situated in **Abruzzo**, there is a 300 m high hill that has hosted vineyards for centuries. Near the white beaches of Francavilla al Mare, and only some km far from the Maiella's snowy ski slopes, in this place several hectares of vineyards have been cultivated for generations with passion and devotion. Sweet lines of golden Pecorino, intense Montepulciano, unconventional Pinot Noir..... decorate the teatine hills with hues of green, and with delicious fruity grapes in Summer.

Wine is born in the vineyard as the result of a lovely and harmonious combination of vineyard, soil and the hand of men.

Kriya wines are a celebration to Love: that inner emotion, both powerful and naturally instinctive, which originates all, even Wine.

Both words come from an antique language, the Sanskrit, typical of the people who started to pay tributes to the Vineyards and their fruits. The verbal root of Kriya is Kri, which means "to make, to act, to react"; in Italian Kriya could be translated as "Action", a simple and instinctive action.

The root of the word "wine" is Ven, which derive from *Vena* which means "Love"
